

## Instruction Guide 43 - Plan Files (Joining Sections Top / Middle / Bottom)

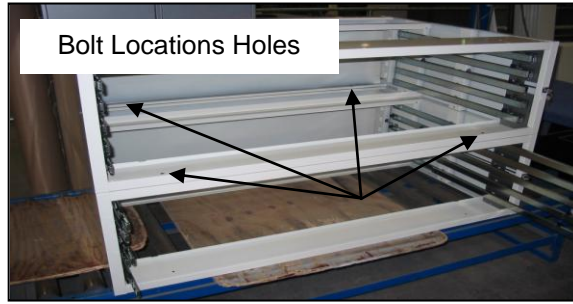

Pull out the top drawer.

Release the drawer from the plastic clips located, either side of the drawer by depressing the clip in, and lifting the drawer upwards. Remove drawer from slides and repeat until all drawers are removed from the unit.

The individual units are joined together with four bolts, spring washers and nuts.

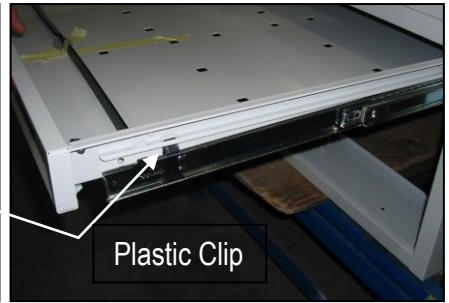

The bolts should be located in the following holes shown.  
(Replace all drawers when the bolts have been fix into place)
